

Thorburn Consolidate School

School Library

Presents The

Fighting Crime one book at a time

The Elementary Division is based on the total number of books read divided by the number of students in the school. Please note: 50 pages in a chapter book will be equal to one book read. Books read by teachers also count for the schools total. In the case of a teacher read book it does not matter how many pages are in the book, one book is equal to one book.
